Experience

Nutrition Center of the Phil I Mandaluyong, Manila | Remote

March 2024 - May 2024

Data Officer | Project Based

Non Government Organization Research

- Conducted end-to-end data processing including collection from surveys, cleaning, and transformation using Python, ensuring high data quality and accuracy for organizational decision-making.
- Analyzed survey data and prepared reports using MS Excel and Power BI to generate visualizations and actionable insights that supported program monitoring and evaluation.
- Managed data relationships and integration by organizing and linking multiple datasets, improving data consistency and usability for reporting and analysis.

InfoSys I India | Remote

May 26, 2025 - Feb. 25, 2026

Recruiter

BPO Company

- Managed high-volume candidate data by sourcing and tracking applicants through various job portals, ensuring organized and up-to-date candidate information for recruitment pipelines.
- Coordinated recruitment schedules and timelines for technical positions using Calendly and Google Calendar, maintaining accurate tracking and sending automated reminders to improve process efficiency.
- Conducted candidate screening and evaluation via Google Meet and Zoom, assessing qualifications, skills, and fit while documenting key insights for data-driven hiring decisions.

McDuffy, Inc. & Fruiz (Sister Company) Las Piñas | Remote

May 12, 2025 - August 12, 2025

Human Resources Representative

Retail Company

- Supported talent acquisition through data-driven sourcing by posting job and internship openings across multiple platforms including Facebook, Indeed, Jobstreet, JobsIn, and Joblum, generating and tracking applicant flow for both companies.
- Performed timekeeping and attendance data management by monitoring and recording employee records using Slack, maintaining organized datasets for accurate workforce reporting.
- Supported payroll data processing by validating timekeeping information and assisting in salary computations using MS Excel, ensuring data accuracy for compensation reports.

Dempsey Manpower Services Inc. I Quezon City | Remote

September 2024 - February 2025

External Source Associate

Manpower Service Company

- Conducted data-driven candidate sourcing by identifying and evaluating potential candidates across Jobstreet, LinkedIn, Indeed, and Facebook using specific job requirements and keywords.
- Performed resume screening and candidate assessment by reviewing applicant profiles, reaching out to suitable candidates, and documenting preliminary discussions to support recruitment analytics.
- Managed and maintained candidate database in Google Sheets, updating recruitment status and ensuring data accuracy for analysis and future hiring needs.

- Managed HR team performance and task tracking by supervising HR interns and monitoring administrative workflows using ClickUp, ensuring high data accuracy and timely completion of tasks.
- Coordinated executive and recruitment scheduling by managing the CEO’s and HR calendars in Google Calendar and Calendly, tracking interviews for local and international candidates while maintaining organized meeting data across Zoom, Microsoft Teams, and Google Meet.
- Analyzed and visualized HR metrics by preparing and analyzing reports on attendance, turnover, and performance indicators using Canva, delivering actionable insights to support leadership decision-making.

Bulacan Drug Rehabilitation Foundation Inc. | Bulakan, Bulacan | On - Site

September 2019 - September 2020

Assistant Psychometrician & Assistant Finance

Mental Health Facility

Non Government Organization

- Psychometrician & Data Support
- Collected, organized, and prepared psychometric testing data for client progress assessment, supporting accurate reporting and analysis of psychological wellness outcomes.
 - Assisted in data collection processes and report generation to track client progress, contributing to data-driven insights for rehabilitation program improvements.

- Finance & Data Management
- Managed financial records including dues, balances, and payment data, ensuring data accuracy through systematic tracking and timely updates.
 - Analyzed payment records and generated reminders for outstanding balances, improving collection efficiency and maintaining clean financial datasets.
